

# Make Your DREAM ... a Reality

**"I first met Dr. Samaha when I was 25 and was supporting my family. I put my wife and young daughter first and never got to taking care of me. In my thirties, my teeth began breaking off and hurting so I had to stop eating apples and other healthy foods. My mother had offered to help pay for my dental treatment because she felt kind of responsible for what had happened. I refused, because I was an adult and felt like it was something I needed to take care of. I couldn't afford the care I needed, so just kept dealing with the pain and embarrassment.**

**When I was forty, my mom sadly passed. With her inheritance, I decided I would make her dream of me with a healthy, good looking smile come true. So I came back to Dr. Samaha fifteen years after I first met her, and she began the process – the winding road back to my smile. With my teeth fixed now, it doesn't matter where I am, people notice me. Because I am smiling, they smile and begin talking to me!** At work, I get so many compliments on my smile. One of the guys I used to work with saw me recently and from 40 feet away he noticed I had gotten my teeth done!

I just feel more confident and easy with people. **People view me with more respect instead of fear and they see me for who I really am – a happy, go-getter kind of guy who likes to enjoy life while working hard!**

I can't thank Dr. Samaha and her assistants enough for what they did for me. **In a matter of months, they did what I never imagined could be done for me!"**
